DDD Documentation

Miro board: <https://miro.com/app/board/uXjVGyCZXBU=/>

Includes: Event Storming (Service Order and Inventory flows), Aggregates and Entities, Bounded Contexts, Domain Storytelling, Ubiquitous Language.

Vulnerability Report

Tool used: `dotnet list package --vulnerable --include-transitive` (built-in NuGet vulnerability audit)

Scan date: 2026-04-08

Findings (before remediation)

Package	Version	Severity	Advisory	Projects affected
Microsoft.Extensions.Caching.Memory	8.0.0	High	GHSA-gj66-m88j-hmgj	Application, Infrastructure, API, UnitTests, IntegrationTests
Npgsql	8.0.0	High	GHSA-x9vc-6hfv-hg8c	Infrastructure, API, UnitTests, IntegrationTests
System.Text.Json	8.0.0	High	GHSA-hh2w-p6rv-4g7w	Infrastructure, API
System.Text.Json	8.0.0	High	GHSA-8g4g-xg66-9fp4	Infrastructure, API
System.Net.Http	4.3.0	High	GHSA-7jgj-8wvc-jh57	UnitTests, IntegrationTests
System.Text.RegularExpressions	4.3.0	High	GHSA-cmhx-cq75-c4mj	UnitTests, IntegrationTests

All findings were **transitive** dependencies — none were directly referenced by the project.

Remediation

Package	Action
Microsoft.Extensions.Caching.Memory	Fixed — updated Microsoft.EntityFrameworkCore to 8.0.11, which pulls 8.0.1+
Npgsql	Fixed — updated Npgsql.EntityFrameworkCore.PostgreSQL to 8.0.11, which pulls Npgsql 8.0.6
System.Text.Json	Fixed — resolved transitively via EF Core 8.0.11 update
System.Net.Http	Fixed — pinned System.Net.Http 4.3.4 directly in test projects
System.Text.RegularExpressions	Fixed — pinned System.Text.RegularExpressions 4.3.1 directly in test projects

Post-remediation scan

```

0 projeto fornecido `MechanicsSoftware.Domain` não tem nenhum pacote vulnerável.
0 projeto fornecido `MechanicsSoftware.Application` não tem nenhum pacote vulnerável.
0 projeto fornecido `MechanicsSoftware.Infrastructure` não tem nenhum pacote vulnerável.
0 projeto fornecido `MechanicsSoftware.API` não tem nenhum pacote vulnerável.
0 projeto fornecido `MechanicsSoftware.UnitTests` não tem nenhum pacote vulnerável.

```

0 projeto fornecido `MechanicsSoftware.IntegrationTests` não tem nenhum pacote vulnerável.

Result: 0 vulnerabilities remaining — all HIGH findings resolved.

Video

Link:

Duration:

Contents covered:

- ☐ Architecture explanation
- ☐ DDD documentation walkthrough
- ☐ API demonstration
- ☐ Docker execution
